Dear colleagues,

We kindly invite you to attend the 6th Swiss Hematology Workshop (SHW). In the meantime, the SHW is a well-established platform, addressing all hematologists treating patients.

With the support of experienced colleagues, we created an attractive program with an international speaker. The Main Topic of the this year's meeting will be "Maintenance therapy in AML".

The program allows lots of scientific discussion, interaction with experts and active participation.

We hope you join us for this important meeting!

Yours sincerely,
