

## **Astellas/SAKK Translational Urogenital Cancer Meeting Award**

To further preclinical and clinical oncology research in Switzerland, SAKK and Astellas have joined forces in the form of the Astellas/SAKK Translational Urogenital Cancer Meeting Award. A researcher will be awarded as representative of a research group or project for the most innovative/promising translational research project.

The focus of the Astellas/SAKK Translational Urogenital Cancer Meeting Prize lies on potential tangible improvements for patient management and outcomes in the treatment of genitourinary cancers. The award is endowed with CHF 20'000.00 and should encourage the continuation of research activities. Hence, the awarded sum is to be used for ongoing and future research within the respective research group or project.

Application is open now!

The application process for the Astellas/SAKK Translational Urogenital Cancer Meeting Award is open now. Deadline to submit your application is January 31, 2021. Please send your application to [bettina.althaus@sakk.ch](mailto:bettina.althaus@sakk.ch).

Full applications shall include:

- Letter of support (one page), which shall emphasize and highlight the scientific project/achievements of the candidate relevant to the Astellas/SAKK Translational Urogenital Cancer Meeting Prize
- Curriculum Vitae and publication list of the candidate relevant to this award
- If applicable, any other relevant information or documentation (e.g. relevant publication or manuscript under review)
