ESMO in the Alps (working title)

September 21 & 22, 2020

The ESMO Virtual Congress 2020 will be the global stage for the exchange and debate of translational cancer science of excellence, first announcements of practice-changing data, and multidisciplinary must-have conversations set to spur transformative therapies against cancer.

Parallel to the ESMO Virtual Congress 2020 we offer the **ESMO in the Alps** (working title) – a live meeting as well as a live broadcasted Webinar. The Scientific Committee will select the most important technical news and discuss directly with experts in six blocks divided according to subject areas. We are kindly inviting you to join this discussion on-site or easily from home.
