3. Access to secuTrial – secure passwords

Your password has to consist of **at least 8 characters** and a minimum of 3 of the following characters have to be used:

- **Upper case letter** (A, B, C, ...)
- **Lower case letter** (a, b, c, ...)
- **Number** (1, 2, 3, ...)
- **Special character** (% , \$, # , ...)

Furthermore, passwords are checked concerning triviality!

3. Access to secuTrial – secure passwords

- This includes examining the single characters' sequence without case sensitivity, not allowed are:
- Three or more identic consecutive characters (AaAaa)
- Three or more consecutive numbers being directly successive (234)
- Five or more consecutive letter being directly alphabetically successive (cDefG)
- Context related triviality is tested as well, forbidden is the usage of IDs and names.
- Moreover, passwords must not equal the previously used password.
- In case the new password is identic compared to the previous one except for one number, this number must not be directly incremented. (HeAtwave1 → HeAtwave2)

3. Access to secuTrial – forgotten passwords

- Do not keep trying to enter a password that is not accepted.
 - After 4 failed attempts your account will be inactivated and you have to contact the responsible CPM/CRA.
- Instead use the **Password Lost button** to request a new one.
