Dear colleagues,

We are proud to announce the 16th Swiss PostASCO event. The Swiss PostASCO is an annual meeting in Switzerland to enable easy access to scientific news and state of the art interpretation of new data.

Nationally renowned speakers, experts in the field and young academics will present the data from the ASCO22 Meeting, along with their interpretation, to an audience of specialists. In addition, there will be an opportunity for the audience to actively engage in a critical review of the data.

We are looking forward to meeting you for high-level scientific discussion of interesting topics.

Prof. Dr. med. Miklos Pless
