

Call for proposals

SAKK/AbbVie Award
for digital innovation
in oncology & hematology

Application deadline: April 30, 2024

abbvie

Submit your project now

Artificial intelligence and digitalization are taking major leaps into medicine and hemato-oncology. SAKK's Digital Innovation Award is funded by AbbVie and aims to support projects that pave the way for synergies between clinicians and information technology to improve standards of care.

The grant is endowed with CHF 30,000.

Last years winner was Olaia Naveiras, Laurence de Leval, Sabine Blum, Rita Sarkis with the following topic:
«MarrowQuant & DeepMarrow: computational hematopathology tools to investigate bone marrow stromal biomarkers in hematological aplasia and myeloid neoplasms.»

Submission

Your application must be submitted electronically via www.sakk.ch

Application deadline: April 30, 2024
